Research
Area

Project UrbKlim
(POCI/GEO/61148/2004)
Financed by FCT and by FEDER
(Operational Programme for
Science and Innovation 2010)

1. Main goal: Urban climate quality to contribute to a better environment
2. Urban climate, global warming and possible consequences
3. Quantifying the cost of urban climate
4. Including climate guidelines in urban planning. Examples and communication problems
